

## Fetească Neagră 2013

Wine with geographical indication  
"Dealurile Crișanei"

### The hills

Rătești hill side has become famous in the 1700s, from count Károlyi's time, when the Swabians first established here. They had a major contribution in transforming the area and making it a popular wine region for the time. High soil acidity and good exposure make fresh white wines and well balanced red wines, with good aging potential. The grapes for this wine were harvested from all three of our locations: Hodișa, Gereușa and Rătești.

### Year Characteristics

2013 was a least favorable year, with extreme temperatures and abundant rainfall. The grapes were affected and the yield was quite poor.

### About the winemaking

The grapes were harvested in October, and after the the alcoholic and malolactic fermentations were finished, the wine was aged in Romanian oak barrels, medium toast, for 12 months.

### Tasting Notes

Red ruby color, rich smell of red fruits, wild berries, a hint of almost ripped plums, very elegantly spiced.

### Serving tips

It pairs well with red fine meat.  
To be served at 12°-14°C.

Alcohol	13,9% vol.
Residual sugar	2,56 g/l
Acidity	6,45
